

E 1
27. (Once amended) A solid aqueous gel comprising: i) at least one hydrophilic gelling agent, ii) at least one cellulose derivative, and iii) a pulverulent phase comprising at least one component chosen from pigments and pearlescent agents, wherein the combination of the hydrophilic gelling agent and the cellulose derivative is present in the gel in an amount ranging from greater than 0% to 20% by weight, relative to the total weight of the gel.

E 2
47. (Once amended) A gel according to claim 27, wherein at least one pigment is present in an amount ranging from greater than 0% to 40% by weight, relative to the total weight of the gel.

E 3
51. (Once amended) A gel according to claim 27, wherein at least one pearlescent agent is present in an amount ranging from greater than 0% to 40% by weight, relative to the total weight of the gel.

E 4
60. (Once amended) A gel according to claim 56, wherein the at least one filler is present in an amount ranging from greater than 0% to 60% by weight, relative to the total weight of the gel.

E 5
71. (Once amended) A gel according to claim 69, wherein the water is present in an amount ranging from greater than 0% to 99.8% by weight, relative to the total weight of the gel.

80. (Once amended) A make-up product for the skin or the keratinous fibres comprising a solid aqueous gel comprising: i) at least one hydrophilic gelling agent, ii) at least one cellulose derivative, and iii) a pulverulent phase comprising at least one component chosen from pigments and pearlescent agents, wherein the combination of the hydrophilic gelling agent and the cellulose derivative is present in the

gel in an amount ranging from greater than 0% to 20% by weight, relative to the total weight of the gel.

81. (Once amended) A make-up product for the body, a foundation, an eyeshadow, a blusher, a concealer, a lipstick, a pencil for the contour of the lips, a mascara, a pencil for the contour of the eyes, a dyeing or make-up stick for locks of hair comprising a solid aqueous gel comprising: i) at least one hydrophilic gelling agent, ii) at least one cellulose derivative, and iii) a pulverulent phase comprising at least one component chosen from pigments and pearlescent agents, wherein the combination of the hydrophilic gelling agent and the cellulose derivative is present in the gel in an amount ranging from greater than 0% to 20% by weight, relative to the total weight of the gel.

E6

82. (Once amended) A method for applying make-up to the skin and/or the keratinous fibres, comprising applying to the skin and/or the keratinous fibres, a solid aqueous gel comprising: i) at least one hydrophilic gelling agent, ii) at least one cellulose derivative, and iii) a pulverulent phase comprising at least one component chosen from pigments and pearlescent agents, wherein the combination of the hydrophilic gelling agent and the cellulose derivative is present in the gel in an amount ranging from greater than 0% to 20% by weight, relative to the total weight of the gel.

83. (Once amended) A method for applying make-up to the skin and/or the keratinous fibers, comprising applying to the skin and/or the keratinous fibres, a make-up product for the skin or the keratinous fibres comprising a solid aqueous gel comprising: i) at least one hydrophilic gelling agent, ii) at least one cellulose derivative, and iii) a pulverulent phase comprising at least one component chosen from pigments
